## OPEN CASE TO STOP PAYMENT CIVIC GRANTS

Henry Charles Ward Seeks Court Declaration That Grants Illegal

Claiming that the city council had no jurisdiction in passing grants totaling about \$2,000 to various city hospitals and other organizations at its meeting of May 20 last, and claiming that in the alternative if the city was authorized to make such grants they were illegal, Henry Charles Ward, of the city council, today commenced action before Mr. Justice A. F. Fries in the Supreme court on Wednesday to obtain a declaration of illegality of the grants were illegal.

Ward is a former member of the city police force.

Plaintiff further claims that council is not empowered or authorized by charter or otherwise and has no power to appropriate or expend the money for the purpose of making the payment by defendant of any of the grants, and that the council and the defendant is not given the right to make them and that they are ultra vires.

It is expected that the case will be concluded by Thursday afternoon at the latest.

**EVIDENCE OF OFFICIALS**

Wednesday afternoon the matter was taken up with evidence of city officials and of representatives of city hospitals.

Ward, the plaintiff, on the stand, stated that he did not exhibit the action entirely of his own motion.

"If your own motion was not the action, you must have been solicited," queried George H. O'Connor, K.C., of counsel for the city.

Substantially correct, replied Ward.

On the stand, City Assessor Walter stated that records showed Ward paid \$10 to the city.

**TEN CENTS ON BASIS**

Cross-examined by Mr. O'Connor, 25¢. Walter stated that he had paid out of the \$2,000 was paid out in grants and bonuses of various kinds.

Ward's contribution was on the basis of his taxes paid, would be 18 cents.

H. H. Parlee, K.C., counsel for defendant, then put in evidence of minutes of council meetings at which profits were made regarding the payment of grants.

It was shown that on several occasions the Edmonton Home Property Owners' Association had protested. Minutes were also in evidence of the city council meeting at which the payments were authorized.

"We admit the good faith of the Edmonton in passing the grants," testified Mr. Parlee.

"That is fine, it saves us raising the question," retorted Mr. O'Connor.

Dr. Frederick T. Waltham, medical superintendent of the University hospital, spent a lengthy period on the stand.

**STATUTORY CLAIM**

In his evidence, it was adduced that the hospital had a statutory claim against the city on behalf of its patients.

It was shown that the hospital received a grant of \$5,000 from the city for the purpose of maintaining the hospital.

No money had been thus far received from the city since the hospital was in addition to this. As a result the hospital received a grant of \$5,000 from the city for the purpose of maintaining the hospital.

The board of governors had decided to accept this claim. The board of governors had decided to accept this claim.

In addition the hospital spent \$2,000 in X-ray and other services.

On the question of the claim there was a loss of \$14,510, which was the deficit for the hospital.

For all its care and expenditure on behalf of city patients the hospital in 1931 only received a grant of \$2,000.

Sister Condemnation acting as treasurer of the General Hospital stated that all patients made to collect from all patients.

Of The Woollens To Be Presented In The Pending War

### THAT YOU MAY KNOW

Notwithstanding the large price reductions in effect on La Fleche Clothes during the past two years, we feel there is still an impression in some quarters that La Fleche Clothes are high priced. More than anything else, this may be the penalty for having steadfastly earned and maintained a reputation for quality.

Those who have bought La Fleche Clothes during this period know that they are not high priced today. . . and they know also that the quality remains unchanged. We want everyone to know the true facts about the cost of La Fleche Tailoring and performance is the strongest proof. This is why we are conducting this advance exhibition and at a time when there is no selling.

In our preparations for the big La Fleche Clothes buying event which opens on Saturday morning we spared no effort or sacrifice to make the outstanding clothes buying opportunity for men and young men of today. Come and see the materials—you will marvel at the values. Friday's Bulletin will announce the prices.

Ladies Are Specially Invited to Come and See This Display of Beautiful Woollens.

will not happen, but it is a question that could not be answered offhand.

Among the ancient Hebrews, all debts were cancelled once in 50 years, and many years ago.

EDWARD P. HUTTON, able young business man, who broadcast two of the few good speeches made on the Republican side during the campaign, met President Hoover in New York on Monday, and at parting, told him a story which may be new to you.

A colored gentleman, persistently hanging around an airport, confessed to a pilot that his only ambition was to go up in the air. The pilot took him up, looped the loop several times, rolled over, then brought him down. His passenger got solemnly: "Now I think you do you say 'I ride'?" asked the pilot. The passenger replied: "Yes, sir. Two rides. My first and my last."

London bankers and angry mob alike have changed their mouths. In old days the mob talked until the police came, then went away. Now a mob is described as highly entertained.

RATES UP AND PRICES DOWN

The executive of the C.P.A. would like to know  
why like freight rates have been dropping  
and gone up by successive "jumps" since the end  
of July. The total increase is said to be from four  
per cent per barrel to seven per cent in wheat.

An investigation into this seventy-five per cent  
rate increase is being asked for. It should be  
checked, and made known in the interests of all  
classes concerned.

It cannot be coming more soon to upgrade the  
ship than in the earlier months of the summer, as  
more than 100,000 tons of grain were shipped  
than carrying grain at less than half the rate, their owners  
are entitled to a share to show that this was the  
rate and that the market has been fairly  
open. If they were making money carrying grain  
at the former rates, the growers and dealers  
are entitled to know why rates have been boosted when  
there were falling and demand falling.

The western farmer is in no position, financially  
or temperamentally, to stand being "pumped"  
rates. Freight rates are being raised in the  
west, and western people one hundred per cent in raising  
nothing of the kind. He should be aware that such  
is not being done, or protected if it is.

THEY DON'T WANT TO TRADE

Mr. Hoover says "Grain will grow in the streets  
of a hundred cities, would be offered for sale  
in the face of farmers, and would be sold to the  
highest bidder."

Mr. Roosevelt says "I favor continued protection  
for American agriculture. I advocate measures to  
the best effect to protect the farmer from the  
loss of his crop."

If the United States is to lead the world back to  
peace and trade revival, there is not much  
in these statements to be proud of. Mr. Hoover  
is not to be excluded everything. Mr. Roosevelt  
takes of relations in other directions, but he  
has no room to farm products.

It is the farm vote in the United States that  
elects the president, and the farm vote has been  
strongly protected. That is all changed there  
is nothing to suggest in the speeches of the two  
men who are appealing for its support. While the  
U.S. farmers continue to demand protection for  
themselves there will be no tariff-making in congress.

Canada may as well discard any hope that the  
United States have any intention of trying to  
stimulate trade both ways with this Dominion,  
wherever party wins. We had better look else-  
where for trade, and for the trade policy and  
our money policy to that end.

THE RELIEF PROGRAM

While the Minister of Labor says Ottawa has no  
definite policy for voluntary unemployment relief,  
it is to be continued until the end of December.  
Single unemployed men are to be offered a living  
and a small amount of pocket money in rural  
areas for constructing agricultural land, and in  
the national parks.

They are also to be offered the privilege of  
living on farms the Government pays them \$5 a  
month for doing so and the provincial governments  
to pay farmers \$1 a month for housing them.  
Thus, it is hoped, is solving the "relief"  
problem, and "will also reveal who among the  
transients are genuinely desirous of returning home  
for the life they expect to lead."

It is to be expected, are underestimating the  
number of "transients" and other single men who  
require relief.

As for city relief, the Dominion will continue to  
pay 25 per cent toward the cost of public improve-  
ment, and no-kind the rest of "direct relief" given  
to resident families.

The suggestion that the cities can again provide  
most of the cost of family relief is optimistic.  
It is nearly as optimistic as the suggestion that  
the relations between the farmer and his government  
paid farm-hand will be satisfactory to either party.

PREFERENCE OR RESTRICTION?

The first impact of the new trade agreement  
upon the wheat trade was disastrous.  
It was announced in London that the old  
preference will not apply to Canadian wheat that  
is sent to the United States and re-exported from  
there to Great Britain. Wheat prices in Canada  
promptly dropped a cent.

Perhaps the sharp drop will have any  
effect on wheat. But it follows that the government  
now closely for the two to be discussed.

Wheat traders said they did not understand  
exactly what the ruling meant. Being in doubt they  
sold wheat and the price advanced. The effect  
Ottawa should now be in getting from London  
a clear and detailed explanation of exactly  
what Canadian wheat is to be considered Canadian,  
and when foreign. Until that is explained there  
will be confusion among sellers and buyers, and  
the never happy business.

This matter should be cleared up before the  
agreement is finally passed by parliament. It is  
important that the Canadian wheat grower should  
be clear on the point that Canadian wheat cannot  
be stored in bond in U.S. terminals and re-exported  
to Britain without being counted there as  
foreign wheat.

The agreement would in this event make  
conditions positively worse so far as the Canadian  
wheat grower and wheat processors are concerned.  
At present we can send wheat to Great Britain by air  
freight and sell it there without paying duty. If the  
agreement means that only wheat shipped from  
Canadian ports can be sold there duty free, par-  
liament should refuse to implement any such  
arrangement.

Canada's gigantic wheat industry needs markets,  
not restrictions on marketing.

## Forty Years Ago

From the Files of the Edmonton Bulletin

W. R. Blevins is in town from Big Lake south  
of Victoria. A. O. Wheeler, D.L.S. is surveying the  
townships surrounding the lake.

The work of grading several streets in the South  
Edmonton townships was commenced on Tuesday. A  
grade will be made along connecting streets from  
the railway station to the top of the hill on the  
trail to the lower ferry. The C. and E. company is  
furnishing the funds. A bridge and grade will also  
be put in at Mill Creek opposite White Avenue.

W. D. Matthews brought to town on Tuesday  
several samples of coal. One of the best is a  
sample of coal from the bank of the White Mud  
creek, about 30 miles south east of Edmonton and  
about four miles west of Black Mud railway sta-  
tion. The ledge about 100 feet in length. The stone is  
a soft sandstone of a bluish color, and is easily  
cut. Its value as a building stone has not yet been  
tested.

W. Medford brought in a 20-pound bag of  
petroleum from the Big Lake field on  
Tuesday. At a depth of about eight feet a bed of  
soft black gum, mixed with sand, is reached. In  
digging through the light small pockets of liquid  
were found. The oil is of the same quality as the  
oil. The specimen brought in will form part of  
the Northwest exhibit at the World's fair.

PASSING IS GOOD

Brown fairly beamed with optimism as Bill Graham and the various directors perfectly turned into the hands of the running game. Graham's passing was exceptionally accurate last night, Joe McCallum, Ed Hutton and Martin Graham on the receiving end.

Expecta to employ an aerial attack frequently in the coming clash the children, and failed, in a four-down. The receivers were not in the ball with any regularity. Brown, Brown and some of his players on the defense.

## EDDIE'S FIGHT FOR FAME HAS REACHED END

Ed Rommel Pitched Hero Out for Athletics in Leamer Years

by WILLIAM BIRT

NEW YORK, Nov. 3.—The passing of Eddie Rommel from the scene of the athletic world brings to an end the story of those athletes who labored for Olympic fame during the great Olympic depression, when the labor was hard and the pickings mighty slim.

Ed came to the A's in 1920 just when the world was getting down on its knees in the business of building a championship club.

The veteran manager had some pretty good boys on his list in those days, but he was looking for a better one. That was the year the Chicago White Sox collapsed after the world series against the Cleveland club managed to stagger through the season.

## Horse Memorial

It isn't pretentious, as memorials go, but the marker below, placed over the grave of Phoebe Laps, famous Australian woman horse, is a fitting memorial to her deeds. It is located on the shore of Lake Huron, where she buried the marker, near Phoebe, Calif.

# EATON'S FRIDAY BARGAINS

To Call EATON'S  
DIAL 9-1-2-0

To many of our customers Bargain Day is almost as much an institution as the Store itself. For almost four years, Friday has been devoted to a clean-up of the broken lines that accumulate over the week. Added to these are specially important "buys" that are marked considerably below usual to make Friday Bargains doubly important from a saving standpoint. Look for "not-advertised" cards.

## Chamois-Lined Winter Coats

Smart in Line and Fabric — Fur Trimmed

Coats made with the rigors of an Alberta winter in mind—their fabrics are heavier wools, and their linings are wind-resisting chamois. Furs, too, add their share of cosiness—deep collars and cuffs in sleek or fluffy furs. Smart coats they are, too, as well as practical ones—the fabrics are the diagonals or crepe wools of fashion favor—colors are the greens and navy and brown and black of the mode. Sizes to 42.
